

The 11th AOSD International Conference

Steel Drums: A Step Towards Global Sustainability

April 22 (Mon.) - 24 (Wed.), 2024

Paradise City, Incheon, Korea

Welcome Message

On behalf of AOSD, I am pleased to announce the upcoming AOSD International Conference to be held in Incheon, Korea, in April 2024, marking a significant return to international gatherings since our last meeting in Suzhou, China, in 2019. This time, Insung Co., Ltd. from Korea will be hosting the conference, providing a splendid venue at Paradise City in Incheon, known as Korea's gateway. Both Insung Co., Ltd. and the AOSD Secretariat are actively engaged in vigorous preparations to ensure the success of this conference.

The theme of the conference, "Steel Drums: A Step Towards Global Sustainability," continues our commitment to addressing environmental issues, building on the foundation laid in the previous conference. Steel drums and pails are recognized as industrial containers with excellent environmental utility in the realization of a sustainable global society. However, we aspire to go beyond current achievements by fostering an unwavering spirit of exploration, aiming to improve manufacturing technologies and undertaking the challenge of environmental measures. This will enable us to make an even greater contribution to global sustainability through steel drums and pails. We anticipate an array of ambitious presentations and lively discussions from a broad perspective during this conference.

We sincerely welcome this opportunity and earnestly hope for the active participation of as many individuals as possible in this vibrant exchange. We look forward to meeting you all in Incheon.

Kiyosumi Fujii
Chairman of AOSD

藤井 清澄

Registration is now open!
